

APARTMENT BUILDING

Jaunā Mežaparka iela 34, Rīga

The apartment building is bordering with the historical territory of Mežaparks along Klaipēdas street, which is one of the quietest and greenest streets in the Mežaparks area. It is surrounded on the east and south by land for lowrise residential buildings and on the northwest by a green zone.

The small dwelling complex consists of two 3-storey apartment buildings on Jaunā Mežaparka street 32 and 34. They are built around a communal courtyard with parking lots, greenery and children's playground.

Designer of the project Gatis Didrihsons is a well-known Latvian architect. His work is characterized by a sense of history and affinity for nature, thoughtful design and attention to detail. The façade recalls the modernism of historical Mežaparks.

The apartment design is bi-directional with windows facing at least two directions thus allowing maximum insolation. Each apartment has a private outdoor space - terrace or balcony.
